

IBEW Visit List — Michael + Jimmy

Cohort targets · 2026-06-21

The play: Jimmy (36-yr Bethlehem IBEW electrician/educator) opens the door; Michael closes. Target the **JATC / apprenticeship training centers** — that's where the cohorts and the training budget (~\$4,500/apprentice/yr) live. Pitch: verified-completion + verifiable-video + all-edition NEC, run per cohort under their existing training budget. **Whoever closes gets paid (MOST/LESS/LEAST).** *Confirm contacts before visiting; log status.*

How to run each visit

1. **Jimmy** makes the intro (brother-to-brother) → meeting with the **JATC Training Director / apprenticeship coordinator**.
2. Show the live Campus on a phone; install it; show **verified completion** + the **Spanish** toggle.
3. Offer a **free pilot for one apprentice class**; if it lands, price per-seat/cohort under their training budget.
4. **Whoever closed it logs the deal** → commission (MOST yr1 / LESS yr2 / LEAST yr3).

Cadence

- **Now:** Local 375 (home) — Jimmy sets it, Michael closes.
- **Next:** 743 (Reading) + 163/81 (NEPA) on the way out; 98 (Philly) is the big swing once we have a 375 reference.
